

Option 1: Text Captions Only

If you want to **read captions** while listening to the original audio:

1. Access Wordly on your computer or phone: scan the QR code to read captions on your phone OR [click on this link](https://attend.wordly.ai/join/YCYR-4788) to use web browser
2. Select your preferred language for captions
3. Keep your Zoom audio on to hear the original presentation.
4. You'll see subtitles in your chosen language on the device you chose
5. To watch the presentation on Zoom and read captions on your browser, keep both windows opened.

Option 2: Audio Translation

If you want to **listen** to the presentation **in your** preferred language:

Requirements: Phone or tablet and headphones.

- Prepare your devices: keep Zoom open on your device and MUTE the Zoom audio to avoid audio conflicts
- Have your mobile device and headphones ready
- Connect to Wordly: Scan the QR code OR [click on this link](https://attend.wordly.ai/join/YCYR-4788).
- Open Wordly in your phone's browser
- Set up audio: select your preferred language
- Click on the speaker icon to hear the translations
- iPhone users: You may need to disable the "silent" option on your device
- You'll hear the live translation through your headphones
- During the event: Watch the presentation on your computer (Zoom) and listen to the translated audio on your phone device
