

Zoom Translation Services

International GM1 COMMUNITY CONFERENCE

October 2, 2026
Virtual

We are committed to making this conference as accessible as possible for our global GM1 community. This year, live audio translation will be available during the conference through Zoom's built-in Language Interpretation feature.

No additional app or account is required. Translation is available directly within your Zoom session and can be accessed in just a few steps.

How to access translation during the conference:

From a desktop computer (Windows or Mac)

- 1. Join the Zoom webinar using the link provided in your registration confirmation email.*
- 2. Locate the toolbar at the bottom of your Zoom window.*
- 3. Click on the Interpretation option in the toolbar.*
- 4. Select your preferred language from the list.*
- 5. If you would like to hear only the translated audio and not the original speaker in the background, select Mute Original Audio.*

From a mobile device (iPhone, iPad, or Android)

- 1. Tap your screen to bring up the meeting controls.*
- 2. Tap the More option in the bottom-right corner of your screen.*
- 3. Select Language Interpretation from the menu.*
- 4. Tap your preferred language.*
- 5. If you would like to hear only the translated audio, toggle Mute Original Audio to on.*
- 6. Tap Done to save your settings.*

Please note that live translation is available during the conference only and does not carry over to post-conference recordings.
