

State Proclamation Request Directory

International GM1 Gangliosidosis Awareness Day, May 23

Use this list to find how to request a GM1 Day proclamation from your governor. Most states ask for 30 to 90 days of notice, so plan to submit between mid-February and mid-March. North Carolina needs 120 days, so submit there by late January. Requirements change, so please check your state's page before you submit. Links were checked in October 2026. If a link no longer works, search for "[your state] governor proclamation request" or contact us at info@curegm1.org.
